Employee Information

My Team > Employee Information

ACA will look to certain information in the employee's record.

Benefit Profile

The Benefit Profile assigned to the employee will direct ACA to the appropriate plan when determining which plan should be used for ACA reporting. For example, if you have three medical plans and the Benefit Profile assigned to one employee only has two listed, ACA will not consider the third plan at all when evaluating that employee. Ensure every employee who is eligible for benefits has a Benefit Profile attached.

Tip: An easy way to accomplish this step is to add the column labeled Current Benefit Profile (Effective) to your Employee Information Report.

Benefit Profile Effective Dates

This tells the system when the Benefit Profile should be applied to the employee. Be mindful of this date, because if it falls prior to the actual date that the employee was truly eligible for benefits, this may affect ACA reporting.

Ensure that every employee with an attached Benefit Profile reflects the correct effective date.

Examples: Find out whether someone has a Benefit Profile assigned prior to their hire date; find out whether someone has a Benefit Profile aligned with the hire date but there is a 30-day waiting period.

Tip: An easy way to accomplish this step is to add the column labeled Benefit Profile (Effective Date From) to your Employee Information Report.

ACA Profile

When ACA looks at the ACA Profile assigned to the employee, ACA can determine what to evaluate and how to report. Ensure that every employee who should be included in the Form 1094-C employee counts has an ACA Profile attached.

Tip: An easy way to accomplish this step is to add the column labeled Current ACA Profile (Effective) to your Employee Information Report. Once on the employee's profile, navigate to the ACA Timeline Overview widget and select Manage Employee's ACA Timeline.

Employee Status Change History Widget

This widget stores all of the employee's action dates (hired, terminated, and re-hired), and the system looks to this when determining which codes to use on Form 1095-C. If there are any questions regarding break in service calculations, please refer to this widget first. If the employee has any of the following, manual corrections will be needed:

- Two consecutive re-hire dates without a termination date between the two
- Two consecutive termination dates without a re-hire date between the two
- A re-hire date without any corresponding termination date prior

If you notice a date missing for an employee, please add it here and then navigate to Team > Benefits > ACA > Employee ACA Actions. Select that same employee and then select Recalculate Status Change from the ellipsis.

Employee Benefit Plans

ACA looks here to see whether the employee is enrolled in coverage, or to see if a record exists that indicates the employee was offered coverage but waived enrollment. (Best practice suggestion: Always enter waive records to easily show that coverage was indeed offered, even though the employee declined enrollment.) Ensure that Coverage Effective From and Coverage Effective To dates are reflecting accurately for employees.

Tip: An easy way to accomplish this step is to use the report found at Team > Benefits > Benefit Plans.

ACA Timeline

The ACA Timeline is a month-by-month account for each employee that shows where they stand in the current lookback period, identifies active compliance alerts, shows the user what will be reported in Lines 14-16 in Part II of Form1095-C, etc. Ensure hours for variable employees are inputted on a month-by-month basis for proper calculation of average hours worked per month.

Tip: An easy way to accomplish this step is to use the ACA Data Detailed report.

Dependents/Beneficiaries Enrollment

OPTIONAL STEP — can be skipped if no plans are self-insured

If the employee is enrolled in a self-insured medical plan, Part III of Form 1095-C must be filled out to identify who was enrolled and for which months. This identification includes the employee, and anyone included on their plan.

If you have a self-insured healthcare plan, ensure that the Effective From and Effective To dates are reflecting accurately for anyone enrolled in the employee's plan in 2023.

Tip: An easy way to accomplish this step is to use the report found at Team > Benefits > Dependents

Dependents/Beneficiaries Demographics

OPTIONAL STEP — can be skipped if no plans are self-insured

Part III of Form 1095-C requires a name as well as either a Social Security number (preferred) or date of birth (only to be populated if the SSN is not available) for every individual enrolled in the employee's plan.

If you have a self-insured healthcare plan, ensure that the Social Security number and/or date of birth is reflecting accurately for anyone enrolled in the employee's plan in 2023.

Tip: An easy way to accomplish this step is to use the report found at Team> Benefits > Dependents and add the Dependent Birthday and Dependent SS# columns.
